

Harshika Jain

Full Stack Developer

Ahmedabad, India | 9024126224 | jainharshika2002@gmail.com | Portfolio | GitHub | LinkedIn

Summary

MERN Stack Developer skilled in building full-stack web applications with React, Node.js, Express.js, and MongoDB, with experience integrating AI/ML features such as automation and intelligent decision systems. Hands-on experience with RESTful APIs, authentication, and deploying real-world applications.

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication & Authorization

Database: MongoDB (Mongoose, Aggregation Pipelines)

Languages: JavaScript, C++, Python

Tools & DevOps: Git, GitHub, Render, Vercel, Postman

Projects

AI Resume Builder

[Live Link](#)

- Built an AI-powered resume builder with role-based content and ATS-optimized output
- Designed real-time preview functionality for live editing of resume sections
- Added customizable templates, fonts, and layout options for personalized formatting
- Built full-stack architecture with React frontend and Node.js/Express backend

Ask Me Chatbot

[Live Link](#)

- Built an AI-powered chatbot using the ChatGPT API for intelligent responses
- Used MongoDB to store chat history and user conversations
- Implemented secure user authentication and login system
- Integrated Razorpay for credit-based payments and top-ups
- Integrated ImageKit API for image upload and media handling

Image Caption Generator (CNN + LSTM)

[GitHub](#)

- Built a deep learning model combining CNN and LSTM to generate descriptive image captions
- Used CNN for image feature extraction and LSTM for sequential text generation
- Trained and validated the model on the Flickr8k dataset for image-caption pairs
- Applied sequence modeling techniques to map visual features to natural language

Education

Integrated Masters in Computer Science

Central University of Rajasthan

2020 – 2025

CGPA: 7.7
